

# OMET PoE

Model: PA8652

PA8652 is a PAx6xx series PoE switch with 6 ports. It supports PoE up to 12V and is designed for industrial applications.

Key features include:

PA8652 is a compact and reliable PoE switch for industrial use.

Features:

- 6 PoE ports + 3 non-PoE ports
- 40W PoE budget
- 15-24V PoE IEEE 802.3af
- Web management (IPv4/IPv6), Modbus TCP, COMET Cloud
- HTTPS, SNMPv3, TLS
- Industrial grade

## Specifications

Power	40W
Ports	6 DSxx ports
Temperature	0.1 °C
Humidity	0.1% RH
Input Voltage	15-24V PoE IEEE 802.3af
Output Voltage	0-30V
Output Current	0.1mA
Output Impedance	< 5 kΩ
Operating Temperature	-30 °C to +60 °C
Storage Temperature	1x 1x T+RH (CINCH)
Power Consumption	40W
Dimensions	40mm (°C), 40mm (°F)
Power Source	IEEE 802.3af 5-24V DC
IP Rating	IP4, IP6
Protocols	HTTP(s), Web server (WWW), HTTP GET (JSON, XML), Modbus TCP, SNMPv1, SNMPv2c, SNMPv3
Alerts	Email (SMTP), Syslog
Response Time	2 s

□□□□ (IP □□)	IP30
□□	116 × 85 × 42 mm (□□□□□□)
□□	180 g
□□	3 □
